

BACKER BRAND POLICY

A legacy to cherish

Our founder Christian Backer patented the modern day tubular heating element back in 1921. Almost 30 years later in Sösdala, Backer BHV was founded to commercialize this technology for large scale production. Since that time, Backer has developed and produced components and solutions for electric heating markets around the world. Still today, in that little town of Sösdala in the south of Sweden, Backer BHV AB remains the global headquarters for the Backer Group. With over 40 companies and 6,000 employees around the world, the Backer Group is the premier solutions provider in the heating element industry.

Many of Backer's products maintain their origins from the technical innovations in the original Christian Backer patents. Heating experts around the word still today refer to the so called "Backer element" as the industry standard.

Our aim is to cherish, strenghten, build and develop the great Backer Group for many years to come.

Our values

The Backer core values are: **Sustainability**, **Innovation**, **Quality**, **Reliability**, **Responsibility** and **Professionality**These values must always be reflected in our visual identity. It's very important that our professionality is reflected in our marketing and media. Therefore these guidelines have been put together for your convenience.

Whom it concerns

First hand these guidelines apply to all companies in the Group where Backer is part of the company name. The other companies are of course also welcome to use this material, but it's not compulsory.

Responsability

Consistency and clearness are general rules in good marketing. It's the only way to build and strengthen our brand to make it competitive in an increasingly generic range of products and services. We are all winners in this matter, if we all take our responsability not only Backer as a brand will benefit, but also all individual Backer companies. Therefore, we kindly ask you to follow these guidelines.

The objective

Our purpose is to strengthen our brand and companies. With this guideline we want to prevent a situation where Backer is presented in numerous ways, which gives a weak, unprofessional and confusing impression of our brand and companies. It is of outmost importance that we are consistent in terms of how we use the logo and all other aspects of our maketing.

If you run into problems or if you find something unclear, please contact: brand@backer.eu

"Great things in business are never done by one person.

They're are done by a team of people".

(Steve Jobs)

BACKER BRAND POLICY

Who we are

The Backer Group is constantly growing. At the moment we are:

Group structure

Depending on the level/placement in the Group structure, the description of a relationship may vary, for example: NN is a company within the Backer Group, part of the NIBE Group's Business Area Nibe Element.

When referring to Backer Group, please always use capital letters for **B**acker **G**roup.

Company description

The following text should be used as a brief description of the Backer Group in various marketing materials:

Backer Group

Backer develops, produces and sells customized solutions and components for electric heating, measurement and control. The original technology was stainless steel tubular elements. However, the constant growth of the Group, both organically and through acquisitions, has enabled the integration of several new technologies. Today the Group offers a far wider product range, with a vast number of technologies for several industry sectors and a large variety of applications.

LOGOTYPE

Main logo with white square (Do not use shadow)

Main logo negative

Always use the minimum distance of the letter B in the logo

Main long logo

Main long logo with tagline The tagline is only used with the main logo

International main logo with tagline when complete address is not needed The tagline is only used with the main logo

EVERYDAY EVERYWHERE

Logo with address for broschures

LOGOTYPE/SUBSIDARY BRAND NAMES

Vertical

Horizontal

When subsidary's brand name is 3 letters or less

Vertical

Horizontal

When subsidary's brand name is 4 letters or more

LOGOTYPE EXCEPTIONS

Vertical

Horizontal

When subsidary's logo must be included

Vertical

Horizontal

When subsidary's brand name structure differs

When subsidary's logo name can not include Backer exlusively due to copyright reasons.

Why Exceptions

The Backer Group applies a decentralized brand strategy. The strategy is based on what is in the best interest of defending and expanding the market shares and profitable growth.

Therefore, for various reasons, exceptions from the subsidary logotypes are made in a few cases.

BACKER GROUP

TECHNOLOGIES

- Many specialized R&D departments to bring new innovative solutions to the market
- · Customized solutions fulfilling special
- Volume and industry production in different parts of the world

- Temperature and measurement
 Interior testing
 Thermal imaging
 Cooling room 25°C
 Noise testing
 Humidity chamber

- Strong focus on components an systems for sustainable energy solutions

Life cycle testing
Wind tunnel tests
Resistor power testing
Long term corrosion tests
Electrial tests up to 24kV AC
External resources for other types of tests such as shock and vibration and intermittent pulses.

MASTERING THE DESIGN

PDM-link/ Product data management etc.

- Thermal/ flow simulations PTC MECHANICA - Thormal and stress analysis
